PROFESSIONAL SUMMARY

UI/UX Designer and Front-End Developer with a Bachelor of Information Technology and six months of agency experience designing web and mobile interfaces for real client briefs. Designs wireframes, interactive prototypes and design systems in Figma, then builds responsive, accessible interfaces with HTML5, CSS3, JavaScript, React and TypeScript. Strong in user-centred design, developer handoff and cross-functional collaboration. Seeking a UI/UX Designer or Front-End Developer role.

CORE SKILLS

- **UI/UX Design:** UI Design, UX Design, User-Centred Design, Wireframing, Prototyping, High-Fidelity Mockups, Design Systems, Information Architecture, User Flows, Competitor Analysis, Usability Best Practices, Accessibility, Responsive Design, Developer Handoff
- **Design Tools:** Figma (Proficient), FigJam, Adobe XD, Miro, Canva
- **Front-End Development:** HTML5, CSS3, JavaScript (ES6+), React.js, TypeScript, Tailwind CSS, Three.js, GitHub, CSS Grid
- **AI Tools:** Claude, ChatGPT, Midjourney, Galileo AI, Notion AI, Google Antigravity
- **Methodologies:** Agile, Waterfall, Documentation, Project Coordination
- **Languages:** English, Sinhala, Tamil

PROFESSIONAL EXPERIENCE

UI/UX Designer Intern | Gamage Recruiters, Colombo, Sri Lanka
February 2025 - August 2025

- Designed user-friendly web and mobile application interfaces from real client briefs, building a portfolio of delivered UI/UX work.
- Produced wireframes, interactive prototypes and high-fidelity mockups in Figma while keeping visual consistency and brand standards across digital platforms.
- Applied user-centred design and usability best practices from research and ideation through to developer handoff.
- Improved interface quality and accessibility by iterating on designs using user feedback and usability reviews.
- Collaborated with developers and cross-functional team members to ensure designs were implemented accurately.
- Maintained design system consistency across concurrent projects, including UI components, branding guidelines and reusable Figma assets, while managing multiple design tasks independently.

FRONT-END DEVELOPMENT PROJECTS

Obsidian Kinetic Engine, Front-End Developer
Tech: React.js, TypeScript, Tailwind CSS v4, Vite, Web Audio API

- Built a dark-mode task and deep-work app with a Cmd+K command palette, Pomodoro focus timer, Kanban state handling and velocity tracking.
- Delivered sub-150ms screen transitions using a Tailwind CSS v4 design-token setup.

Contempo Archive: Contemporary Art Museum & Catalog, Front-End Developer
Tech: HTML5, CSS3, JavaScript | github.com/AmeshikaMohankumar/Contemporary-Art-Website

- Built a responsive museum catalog with a 12-column editorial layout, searchable and sortable archive index, zoomable artwork lightbox and filter chips.
- Passed 5/5 automated unit tests (node:test) covering sorting, search matching and taxonomy counts, and verified layouts across viewports with Playwright.

SweetStudio: 3D Cake Customizer, Front-End Developer
Tech: JavaScript, Three.js, WebGL

- Built a browser-based 3D cake customizer where users rotate a multi-tier cake, choose flavours and see a live price as options change.

UI/UX DESIGN PROJECTS

PayPal Mobile App Redesign, UI/UX Designer | Figma

- Reviewed competitor flows, wireframed the international transfer journey, and designed a fee-breakdown card and confirmation screen to make fees and currency conversion clear.

AI Adaptive Dashboards, UI/UX Designer | Figma

- Designed dashboard widgets whose size and emphasis adapt to priority (Nominal, Warning, Critical) so users see what needs attention first.

Recipe Hub: Workflow Library, UI/UX Designer | Figma

- Designed a desktop SaaS library screen from reusable components (sidebar, search, category chips, recipe cards) as part of a component-based design system.

Local E-Grocery App, UI/UX Designer | Figma

- Designed mobile flows for item browsing, quantity controls, delivery-slot selection and single-page checkout.

EDUCATION

Bachelor of Information Technology | Saegis Campus, Nugegoda, Sri Lanka
2022 - 2025

Relevant coursework: Human-Computer Interaction, Web Technologies, Object-Oriented Programming, Software Engineering, Database Management, Mobile Application, Agile System Development, IT Project Management
